Welcome to the Portsmouth Regional Hospital/Tufts University School of Medicine Family Medicine Residency Program. We are proud to introduce the Family Medicine Residency Program located in the seacoast area of New Hampshire. Our goal is to train highly skilled Family Physicians with a commitment to excellence for the benefit of the community we serve. Our culture of learning nurtures continuous improvement of resident education, evidence-based patient care, and service to our greater community. The foundation of the resident educational experience is the continuity clinic. Residents care for their panel of patients in the outpatient continuity clinic every week as primary care physicians and develop longitudinal relationships with their patients.

One of the unique aspects of our residency is a 4 hour educational block each week with a focus on interactive didactic sessions and the use of our new Simulation Center. As a new program, residents have a major impact on the growth of the residency, including future curriculum and the development of team based care in the continuity clinics. In conjunction with the other new residencies at Portsmouth Regional Hospital, there is an active approach to work with and engage peers in other specialties to support learning and overall resident well-being.

We are excited to continue growing our Family Medicine resident education at Portsmouth Regional Hospital and the affiliated practices in the surrounding community. I invite you to review more details on the following pages and on our website. I very much look forward to meeting you in the future.
